Shawn & Tyler

OUR STORY

We met at the start of the pandemic in 2020 and there was an instant connection. We spent a lot of time getting to know one another and found out quickly how much our wants aligned. It is our biggest dream to provide a loving, nurturing home for a child.

We always knew we wanted a family, coming from larger ones ourselves. Adoption was always a seed planted in our hearts that deepened as time flew by. We are ready to start the adoption journey. We want to adopt because we have room in both our home and our hearts for a baby and their birth family.

When we're not at home with our pets, we spend a lot of time traveling, listening to live music, or on the lake with Tyler's family when weather permits.

WHY WE ARE ADOPTING

We are eager to embark on the journey of adoption with the heartfelt intention of nurturing and loving a child unconditionally.

Our desire is to provide a warm and supportive environment where they can flourish and grow. By expanding our family through adoption, we hope to offer your child not only a loving home but also the joy of being part of a big family, where they can forge strong bonds and experience the richness of shared experiences.

As we embrace on this path, we look forward to creating cherished memories, learning from one another, and enjoying the beauty of life together as a loving and united family.

MEET *Shawn*

In Tyler's Words

Shawn is so many things, but above all, he is loving, hard-working and kind. He is selfless and constantly puts others needs above his own. He is an Email Marketing Specialist and has been in the field almost 8 years now. He grew up in Louisville, KY but moved to Washington, D.C. to get his Master's Degree from American University.

I grew up in the a big family (the oldest of 8), constantly surrounded by kids. I have several siblings much younger than me and when Shawn met them, he immediately took them in and cared for them as his own. Watching Shawn with these kids made me realize what an amazing father I believe he one day would be.

Shawn works so hard all day, every day to provide a special life for both of us. I count myself very lucky to be loved by him and have him as my partner in life.

In Shawn's Words

Tyler radiates love everywhere he goes. To put it simply, he has the biggest heart, sees the best in everyone and everything, and will always go the extra mile for the people he loves.

The first thing I noticed about Tyler was how family-oriented he is. He comes from a big family and talks about the memories he made as a kid at the big events (holidays, birthdays, etc.) but also how much love was shown in the small moments. He can't wait to make the same memories and pass traditions down to our future family. He's a music lover, has an adventurous spirit, is funny, witty, but more important than anything - he's the kindest person I've ever met.

Tyler has never put anyone in a box. He believes that everyone has a right to live up to their god-given potential and will make the best dad. It sounds cliché, but from the moment we met, I knew he was the person I wanted to build a life and family with.

Our Pets

We are big animal lovers and they are a huge part of our home. We love them beyond words and would keep adding them if we could.

OUR COMMUNITY

We're pretty biased, but we have some of the best friends and family. These people would drop anything in a moments notice to help us. Each one is incredibly fun, tough, kind, dependable, loyal, thoughtful and stretch us to be our best. Each person has come into our lives at different times, but are all precious in their own way. We love hosting any kind of get together. We all support each other, we consider our friends as family and they play a major part in our lives.

MEET OUR FAMILIES

TYLER'S FAMILY

I come from a rather large family! I'm the oldest of 9 children, including a brother who joined the family through adoption

My Mom and step-father live just 20 minutes away from us, we are very close to them and see them often. My Mom is so excited about this opportunity and will play a major role in your child's life.

My father, step-mother, younger siblings, and grandparents all live back home in Corbin, KY, which is where I grew up. I make visits regularly to see them and we are all extremely close and they, as well, would be a huge part of your child's life.

There is a village of people waiting to love and nurture your child with us and we could not be more grateful.

SHAWN'S FAMILY

Contrary to Tyler's upbringing, my family was a lot smaller but also blended. I had an amazing, supportive village around me.

My mother was not in the picture when I was younger and my father is deceased. I was raised by my aunt and my grandmother during the early years and my mom came back into the picture as a teenager and we have a positive relationship.

Growing up, I saw first-hand that it takes a village and I was blessed to be surrounded by incredibly strong women who made sure I was afforded every opportunity to succeed.

**GROWING UP, I SAW FIRST
HAND THAT IT TAKES A
VILLAGE AND I WAS
BLESSED TO BE
SURROUNDED BY
INCREDIBLY STRONG
WOMEN**

I am the youngest of five siblings and my sibling age range is pretty far. Growing up, we had a lot of family gatherings full of laughter, good food, and better memories.

Rest assured, your child will be joining a large, diverse, and supportive family who will do everything to provide opportunity.
